CARTER XEP

High performance lubricant for enclosed gears.

APPLICATIONS

Heavily loaded gears in casing

 CARTER XEP is a new generation of high-performance lubricant for heavily loaded reducers. The severest technical specifications were taken into account during the development of this product especially regarding micropitting protection and anticorrosion properties.

SPECIFICATIONS

International specifications

- DIN 51517 Part 3 ⇒ CLP group
- ISO 12925 CKD category
- AGMA 9005 D94
- **OEM's specifications**
- US STEEL 224
- DAVID BROWN
- FLENDER

ADVANTAGES

- Excellent extreme-pressure performances, remarkable protection of heavily loaded toothing against micropitting.
- Excellent anti-corrosion properties protecting gears in critical environments (sea water or acidic water contamination).
- Very good thermal stability ensuring a longer service life than conventional lubricants.
- Strengthened foaming protection. Good demulsification behaviour.

TYPICAL CHARACTERISTICS	METHODS	UNITS	CARTER XEP				
			150	220	320	460	680
Viscosity at 40°C	ISO 3104	mm²/s	150	220	320	460	680
